

Online Learning Guide: Workstation Requirements

MORC has developed online training courses to help individuals and providers meet training compliance requirements. Here are some workstation requirements to help you get the most out of Cornerstone and our online classes. **Training Managers** (with Provider & Learning Manger access to Cornerstone) will find that desktops & Laptops running a Windows operating system will give them the most functionality. **Learners** who need to take online classes can register for and launch them more easily with a mobile device and a free version of the Cornerstone mobile-friendly App.

Windows Laptop or Desktop

Laptop or Desktop Computers
