

Invitation to Special COVID-19 Support Group Webinar

How Has COVID-19 Affected Your Life?

The MI-OCEAN project team would like to learn more about how COVID-19 has effected your life, your family life and the life of your t son or daughter, sibling, and grandchild with a disability. Many of us can no longer participate in daily activities that we enjoyed. The person we support, is unable to go to community activities, school, work and many other aspects of their lives that bring them joy.

We want to spend an hour with you, learning more about how this is influencing your world, and suggestions you may have on how we can improve the situation, in the future. We will start the hour out with an activity, then proceed to ask you a few questions. Below is the link to participate in this special Caregiver meeting. Your family is invited to attend, all are welcomed!

Sponsored by: The Michigan Older Caregivers of Emerging Adults with Autism and other Neurodevelopmental Disabilities (MI-OCEAN) project

The primary aim of MI-OCEAN is to address the needs and health concerns of aging caregivers (age 55+) of adults with neurodevelopmental disabilities. The project uses a family support model to identify and address various issues that may negatively impact the health and well-being of aging caregivers and those that depend on them.

For more information about the **MI-OCEAN Project**, please visit: <https://ddi.wayne.edu/miocean>.

Thursday
April 23, 2020
